

TECHNICAL DATA SHEET

Sharpening rod D84 0A 30

Designation :

Oval rod sharpening steel 30 cm (11 $\frac{3}{4}$ inch), extra fine cut with a thermoplastic elastomere handle with ring

- Available colours
- Sold by box of 6

Customs code : 82055100

Description :

Rod

- Material: Stainless steel NO6MOV (numeric code 1.4116)
- Hardness: 65 HRC (after heat treatment)
- Casing: hard chrome with thinness from 15 to 20 microns

Handle

- Material: thermoplastic elastomer TPE
- Conformity with food contact
- Required qualities for intensive use
- Temperature of use from -30°C to 100°C
- Hanging ring: stainless steel (numeric code 1.4301)

Caribou sharpening steels range meets all requirements 1935/2004/CE dated 2004.10.07, 2023/2006/CE dated 2006.12.22, 10/2011/UE dated 2011.01.14 and 2020/1245/UE dated 2020.09.03.
